SERVICE TECHNICAL INFORMATION

ONE POINT REPAIR

UTSUNOMIYA, February 28, 1995

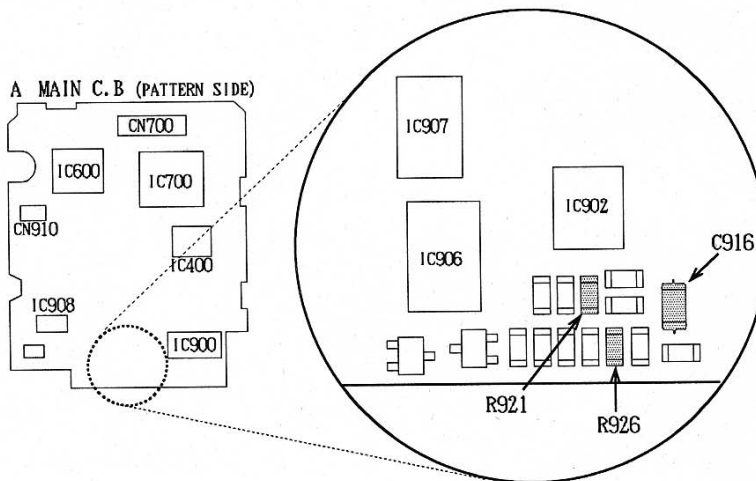

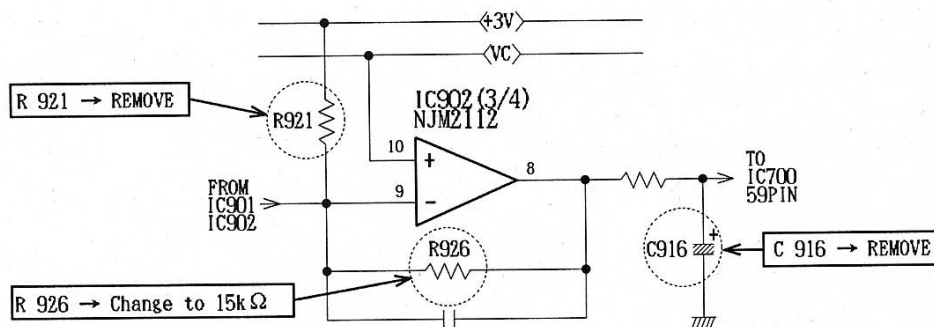

REF. NO. : SI-94-051

CUSTOMER RELATIONS & SERVICE DIV.

MODEL : AM - F1
 SUBJECT : ALC characteristic change
 SYMPTOM : The customer indicates such things as level fluctuation and sound distortion during analog REC (LINE, MIC). In such cases, perform the following remedy in order to change the ALC (auto level control) characteristic.

However, explain to the customer that this ALC is set on the premise of being used in a long running mode (monophonic recording), and to some degree similar symptoms will occur even after performing the following remedy.

REMEDY : Remove the parts shown below and change the constant.
