

Service Bulletin

No. : MZ09-042

Date: August 27, 2009

Model: SR8002/7002

Subject: Change of supplied Remote Controller

* This Service Bulletin is only service information for the following minor improvement. This is not a call requiring a rework to be applied to stock units.

Symptom: The supplied Remote controller for SR8002/SR7002 will be discontinuing production soon. Therefore, we will supply a new Remote controller RC3001 from next production.

Solution: 1. Detail of the production of SR8002/SR7002

1-1. When the stock of attached remote control (RC8002SR) that exists in Factory ends, it changes to RC3001.

1-2. As for RC3001, making the operation equal with the RC8002SR can be done by changing Firmware.

1-3. Operation interchangeability table (Addendum Sheet) of RC8002SR and RC3001 is bundled. (Refer to attached detailed paper)

1-4. To identify it with Carton Box, identification Label is put on the upper part of Shipping Label. (Refer to attached detailed paper)

2. Modification of RC3001 for SR8002/SR7002

When you exchange the original RC3001, you have to update the firmware of new RC3001 with flysheet.

Writer software: **"Wizz it 3"**

Firmware: **"Firmware Default Configuration_SR7002-8002.mcf"**

Service Parts: **"90M-ZK000760R"** (Unit Kit REMOTE CONTROLLER RC3001)
