IMPORTANT NOTICE

This manual has been provided for the use of authorized Yamaha Retailers and their service personnel. It has been assumed that basic service procedures inherent to the industry, and more specifically Yamaha Products, are already known and understood by the users, and have therefore not been restated.

WARNING: Failure to follow appropriate service and safety procedures when servicing this product may result in personal injury, destruction of expensive components and failure of the product to perform as specified. For these reasons, we advise all Yamaha product owners that all service required should be performed by an authorized Yamaha Retailer or the appointed service representative.

IMPORTANT: This presentation or sale of this manual to any individual or firm does not constitute authorization, certification, recognition of any applicable technical capabilities, or establish a principal-agent relationship of any form.

The data provided is believed to be accurate and applicable to the unit(s) indicated on the cover. The research engineering, and service departments of Yamaha are continually striving to improve Yamaha products. Modifications are, therefore, inevitable and changes in specification are subject to change without notice or obligation to retrofit. Should any discrepancy appear to exist, please contact the distributor's Service Division.

WARNING: Static discharges can destroy expensive components. Discharge any static electricity your body may have accumulated by grounding yourself to the ground buss in the unit (heavy gauge black wires connect to this buss).

IMPORTANT: Turn the unit OFF during disassembly and parts replacement. Recheck all work before you apply power to the unit.

WARNING: CHEMICAL CONTENT NOTICE!

The solder used in the production of this product contains LEAD. In addition, other electrical / electronic and / or plastic (where applicable) components may also contain traces of chemicals found by the California Health and Welfare Agency (and possibly other entities) to cause cancer and / or birth defects or other reproductive harm.

DO NOT PLACE SOLDER, ELECTRICAL / ELECTRONIC OR PLASTIC COMPONENTS IN YOUR MOUTH FOR ANY REASON WHAT SO EVER!

Avoid prolonged, unprotected contact between solder and your skin! When soldering, do not inhale solder fumes or expose eyes to solder / flux vapor!

If you come in contact with solder or components located inside the enclosure of this product, wash your hands before handling food.

IMPORTANT NOTICE FOR THE UNITED KINGDOM

Connecting the Plug and Cord

WARNING: THIS APPARATUS MUST BE EARTHED

IMPORTANT: The wires in this main lead are coloured in accordance with the following code:
 GREEN-AND-YELLOW: EARTH
 BLUE: NEUTRAL
 BROWN: LIVE

As the colours of the wires in the main lead of this apparatus may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The GREEN-and-YELLOW wire must be connected to the terminal in the plug that is marked with the letter E or the safety earth symbol (or coloured GREEN or GREEN-and-YELLOW).

The BLUE wire must be connected to the terminal that is marked with the letter N (or coloured BLACK).

The BROWN wire must be connected to the terminal that is marked with the letter L (or coloured RED).

This applies only to products distributed by Yamaha Kemble Music (U. K.) Ltd.

■ WARNING

Components having special characteristics are marked  and must be replaced with parts having specification equal to those originally installed.

SPECIFICATIONS

Rated Output Power:	20W
Speaker:	20cm x 1
Controls:	VOLUME, GAIN, MASTER VOL., TREBLE, MIDDLE, BASS, CH SELECT switch (A/B)
Input/Output Terminals:	INPUT, AUX IN, PHONES
Output Impedance:	100Ω (PHONES)
Power Consumption:	30W/100V (J) 25W/120V (UL,CSA) 25W/230V (E,BS)
Power Requirements:	U.S. and Canadian models: 120V, 60Hz General model: 230V, 50Hz
Dimensions (W x H x D):	357 x 330 x 197mm (14.1" x 13" x 7.8")
Weight:	6.5kg (14 lbs 5 oz)

BLOCK DIAGRAM

■ DISASSEMBLY PROCEDURE

1. Pre-Main Unit (Time required: about 1 min)

- 1-1 Remove the speaker wires.
- 1-2 Remove the four (4) screws marked [30]. The pre-main unit can then be removed by sliding it backward. (Fig.1)

2. Speaker (Time required: about 1 min)

- 2-1 Remove the four (4) screws marked [A]. The back board can then be removed. (Fig.1)
- 2-2 Remove the four (4) screws marked [B]. The speaker can then be removed. (Fig.1)

3. MAIN 1/2 Circuit Board (Time required: about 3 min)

- 3-1 Remove the pre-main unit. (See procedure 1)
- 3-2 Remove the six (6) knobs marked [P100] and the six (6) hexagonal nuts marked [C]. (Fig.5)
- 3-3 Remove the hexagonal nuts marked [A120] and the hexagonal nuts marked [A140]. (Fig.5)
- 3-4 Push the hooks of the spacer support (at the arrow symbol area of illustration) with a needle-nose plier to unlock. The Main 1/2 circuit board can then be removed. (Fig.2)

[30]: Truss Head Screw 4.0X25 MFZN2BL (VN347600)

[A]: Bind Head Tapping Screw 4.0X25 FCRM3-BL (EI340256)

[B]: Bind Head Screw 4.0X20 ZMC2BL (VB403600)

(Fig. 1)

(Fig. 2)

4. MAIN 2/2 Circuit Board (Time required: about 3 min)

4-1 Remove the pre-main unit. (See procedure 1)

4-2 Remove the screw marked [C80]. The MAIN 2/2 circuit board can then be removed. (Fig.5)

5. Power Transformer (Time required: about 4 min)

5-1 Remove the pre-main unit. (See procedure 1)

5-2 While pushing down the nut marked [P70] with a spanner, remove the two (2) screws marked [P60]. The power transformer can then be removed. (Fig.4)

(Fig. 3)

(Fig. 4)

[A120]: Hexagonal Nut 9.0 12X2 MFNI33 (LX200060)

[A140]: Hexagonal Nut 12.0 14X2 MFNI33 (ES200210)

[C80]: Bind Head Tapping Screw-1 3.0X16 MFZN2BL (EP030310)

[P70]: Hexagonal Nut #1 4.0 MFZN2Y (VB837300)

[P60]: Pan Head Screw 4.0X10 MFZN2BL (V7018000)

[P100]: Knob (V6955100)

(Fig. 5)

CIRCUIT BOARDS

•MAIN1/2 Circuit Board

VERSION	FUSE RATE	INDICATION
J, U	250V 500mA	J . U . C 250V 500mA Must be erased

■ INSPECTIONS

1. Preparation

To inspect the main unit, the following jigs are required.

CD player

Headphones

Before turning the power on, set all the knobs on the panel to "0".

Raise the CH SELECT switch to select channel A.

2. Power supply

Connect the power cord to the suitable power supply socket for each version.

(UC - 120V, E&BS - 220V)

3. Inspection procedure

- 3-1 Input the audio signal of CD player to the AUX-IN jack.
- 3-2 Make sure that the sound becomes gradually larger (or smaller) according as you turn the VOLUME knob to the right (or left).
- 3-3 Make sure that the high frequency is gradually emphasized (or eliminated) as you turn the TREBLE knob to the right (or left).
- 3-4 Make sure that the middle frequency is gradually emphasized (or eliminated) as you turn the MIDDLE knob to the right (or left).
- 3-5 Make sure that the low frequency is gradually emphasized (or eliminated) as you turn the BASS knob to the right (or left).
- 3-6 Make sure that the sound becomes larger when you depress the CH SELECT switch to select channel B.
Besides, make sure that the sound becomes gradually distorted according as you turn the GAIN knob to the right.
- 3-7 Make sure that the sound becomes gradually larger (or smaller) according as you turn the MASTER VOLUME knob to the right (or left).
- 3-8 Raise the CH SELECT switch to select channel A and make sure that the audio signal sounds over the speaker.
- 3-9 Connect headphones to the PHONES jack. Make sure that the speaker does not produce any sound and audio signal sounds over the headphones.
- 3-10 Set all the knobs on the panel to "0" and finish the inspection.

OVERALL ASSEMBLY	2
PRE-MAIN UNIT	4
ELECTRICAL PARTS	6

■ WARNING

Components having special characteristics are marked  and must be replaced with parts having specifications equal to those originally installed.

- The numbers in “QTY” shows quantities for each unit.
- The parts with “--” in “Part No.” are not available as spare parts.
- The second letter of the shaded () part number is I, not one.
- The second letter of the shaded () part number is O, not zero.

RANK: Japan only

OVERALL CIRCUIT DIAGRAM

(ε) : Ceramic Capacitor
(マ) : Myler Capacitor
酸金: Metal Oxide Film Resistor

Note: See parts list for details of circuit board component parts.

WARNING
Components having special characteristics are made Δ and must be replaced with parts having specification equal to those originally installed.
